Health and the Manifesto of Hope

The CDP is increasingly concerned about the way in which the SA government seems to be relaxing some of the controversial Covid-19 regulations, but on the other hand are increasingly ignoring human rights, scientific evidence, and legal argument regarding Covid passports for travellers and the “mandated” (who gave the mandate?), compelled, and coerced vaccinations in universities, schools and the workplace.

Freedom of choice, good science and human rights are blatantly ignored!

What is all the more obvious and very disturbing is that despite local and international protest against oppressive and increasingly controversial Covid-19 related actions by many parts of the establishment worldwide - reported as if it is all normal and above board by the mainstream media, or suppressed in the alternative and social media - governments brutally, callously and deceitfully ignore their law-abiding and tax paying citizens!

There are more than twenty-two credible international actions and professional legal as well as scientific witnesses against every aspect of what more and more seems to be an international “Covid” scam, possibly devised to make money, maim, injure and kill people and their children, to shift the balances of economic and technological power and to pre-position methodology for massive worldwide manipulation and control through man made disease in the near future.

Lamentably, the Body of Christ remains intimidated, divided and weak in the face of this great adversity in human history which had already done so much damage to lives, economies, confidence in governments and economic development, and the Church, instead of coming to united Christian action and a sustainable worldwide plan for righteousness.

In the meantime UN Agenda 21 and 30 remain in the background as open proof of a broad framework for unrighteousness against humanity.

The CDP remains steadfast in promoting God fearing governance, truth and justice in South Africa.

Gesondheid en die Manifes van Hoop

Die CDP is toenemend bekommerd oor die manier waarop die SA regering eensyds te blyk om sommige van die aanvegbare Covid-19 regulering te verslap, maar andersyds toenemend teenstrydig met menseregte, wetenskaplike bewyse en regsargumente aangaande Covid paspoorte vir reisigers en die sogenaamde “mandaat” (wie gee die mandaat?), geforseerde en gedwonge Covid inentings by universiteite, skole en werkplekke toe te pas.

Vrye keuse, goeie wetenskap en menseregte word blatant geïgnoreer!

Wat al duideliker, meer opvallend en onrusbarend is, is dat ten spyte van plaaslike en internasionale protes teen onderdrukkende en toenemend-aanvegbare Covid-19 verwante optrede deur talle sektore van die wêreldwye gevestigde orde, - aangeprys as normal en binne die reg deur die hoofstroom media, of onderdruk in die alternatiewe en sosiale media, - ignoreer regerings hulle belastingpligtige en wetsgehoorsame burgers brutaal, onderduims en agterbaks!

Daar is tans meer as twee en twintig kredietwaardige internasionale aksies en professionele regsgeleerde asook wetenskaplike getuienisse teen elke aspek van wat meer en meer lyk na 'n internasionale Covid bedrogspul, moontlik ontwerp om geld te maak, om mense en hulle kinders te vermink, beseer of dood te maak, om balanse van ekonomiese en tegnologiese mag te verskuif en om metodes te vestig vir massiewe wêreldwye beheer d.m.v. mensgemaakte siektes in die nabye toekoms.

Betreurenswaardig bly die Liggaam van Gelowiges geïntimideerd, verdeeld en swak in die aangesig van die grootste aanslag in menslike heugenis. 'n Aanslag wat reeds soveel skade gedoen het aan lewens, ekonomieë, vertroue in regerings en ekonomiese ontwikkeling en die Kerk, in plaas daarvan om tot verenigde Christen aksie en 'n volhoubare plan vir wêreldwye geregtigheid te kom.

Intussen bly VN Agenda 21 en 30 in die agtergrond as bewys van 'n openlike en breë raamwerk vir ongeregtighede teen die mensdom.

Die CDP bly standvastig om Godvresende regering, waarheid en geregtigheid in Suid Afrika te bevorder.
